WELCOME TO OUR HOLIDAY EDITION

Wheels on track, wires securely connected, and with a flick of a switch, the holidays are officially underway! For over a century, model trains of every size have been an important part of holiday celebrations for many families. Whether it's a special display layout that comes to life once a year, the warm memories associated with a treasured family heirloom, or you're starting your own tradition with a brand-new set, we have everything to get your holiday fun on track!

We searched Santa's workshop then made a list, checked it twice and put together our annual Holiday Gift Guide that starts on the next page in this issue. Making holiday shopping fast and fun, you'll find everything from starter sets to accessories that bring a seasonal layout to life. Like Santa's sack, it's full to the top with wonderful gift suggestions that will delight any model railroader on your list - and you just might find something special for yourself too!

COVER STORY: What's your favorite memory of opening a new Reference Book for the first time? The many hours spent dreaming, the "ah-ha" moments when you found that must-have model, detail or accessory, the memories made while working on your railroad with family or friends... all of these and so much more have made the Model Railroad Reference Book a part of the fun for generations! Our 2024/2025 Book continues the tradition, with more listings and photos than ever for a more complete reference of products from Walthers and our many suppliers. The Magic of Model Railroading and our Yearbook are back too, filled with ideas, inspiration and information. With the holidays right around the corner, a Book is the perfect gift for every modeler on your list - or treat yourself to a new copy! Look for the 2024/2025 edition at your local hobby shop today!

THE 2023 WALTHERS MODEL RAILROAD SCHOLARSHIP WINNERS

Wm. K. Walthers, Inc. wants to recognize the future of our hobby; the youth and young adults active in model railroading and pursuing a degree in one of the STEAM programs; Science, Technology, Engineering, Art or Math. Walthers awarded two deserving young adults one \$2,500 scholarship each!

MEET THIS YEAR'S WINNERS!

LEO COOKE

Pennsylvania College Of Technology

Leo's fascination with model railroading took root close to home, inspired by the enthusiasm of his father, who wished to share the joy this hobby had brought to his own life. Leo embraced his father's guidance and became part of a local model railroad club, beginning his personal journey of passion and dedication to the hobby. Through his involvement in model railroading, Leo was influenced to pursue a career in engineering. The diverse skills he acquired along the way, including wiring electronics, critical thinking, meticulous planning, and integrating creativity and artistry, played a transformative role in shaping his career aspirations.

Leo looks forward to his future at the Pennsylvania College of Technology, where he plans to study engineering.

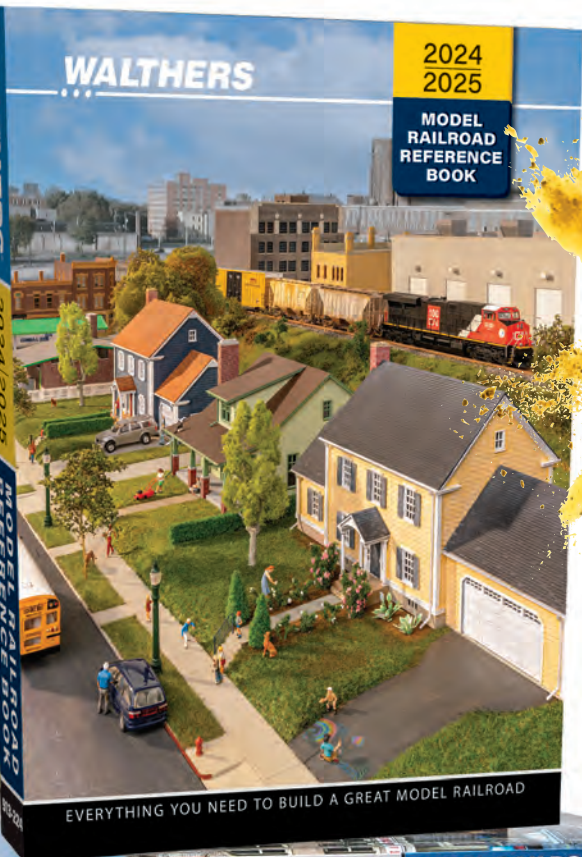

MATTHEW GERBER

High Point University

Matthew's interest in model railroading quickly became a passion for the hobby. He began tackling ever-greater challenges that seamlessly integrated with his second passion: 3D printing. Embodying the essence of STEAM principles, he undertook the ambitious project of designing, constructing, wiring, and perfecting an elaborate N scale layout housed within a glass coffee table. Throughout this transformative process, he honed his critical thinking and creative problem-solving abilities, leading him to create custom structures and components using a combination of Tinkercad and his 3D printer.

Matthew now sets his sights on a future in Electrical Engineering at High Point University.

HO Three-Stall Roundhouse

Walthers Cornerstone®.
North American style kit
includes all the traditional
details: two-level roof,
with separate clerestory
windows and smokejacks,
plus 23 large windows for
natural lighting. It holds
engines up to 13" long,
typical of the power found
on most lines. Stalls are
spaced on 10-degree
angle, requiring less
approach trackage. With
its modular design, the
basic 3-stall kit can be
enlarged up to a full circle
by combining additional
kits, each sold separately.
